Children should be educated without pressure then should enter into adulthood free from damaging effects of tradition and fear. Free expression of thought should be given to the children. A child once asked Krishnamurthy. Is it your hobby to give lecture? Don't you get tired of talking? Why are you doing it?" Krishnamurthy replied; "I am glad you asked that question. You know if you love something, you get never tired of it. I mean love in which there is no desire of wanting something out of it. If you are talking you are getting something out of it: money, reward, Sense of your importance; then there is weariness. Then it has no meaning because it is only self-fulfillment, but if there is love in your heart, it is like a fountain, always giving fresh water."
